

LEED Contribution Points

International Cellulose Corporation recently announced that K-13, SonaSpray “fc”, SonaKrete, and Celbar products will contribute up to 17 points to the overall LEED rating of a project. **LEED is a self-assessing system designed for rating new and existing commercial, institutional, and high-rise residential buildings. It evaluates environmental performance from a "whole building" perspective over a building's life cycle, providing a definitive standard for what constitutes a green building.** K-13, SonaSpray “fc” and Celbar contribute in the following areas Optimize Energy Performance, Recycled Content, Local/Regional Materials, Rapidly Renewable Materials, Certified Wood, Low-Emitting Materials and Daylight & Views. For a complete PDF list of possible points from K-13, SonaSpray “fc” and Celbar [click here](#). For more information about LEED program visit www.usgbc.org.
